PE and Sport Funding plan 2017 - 2018

Rationale

We have always been committed to providing as broad and rich a curriculum as possible, drawing upon staff talents and specialisms at any given point, and taking advantage of other initiatives or adult expertise which may become available to us. We have been successful in this aim, including in the numerous successes with sport and PE. Our school has an excellent reputation for the quantity and quality of sports experiences we offer the children. The school leaders and Governors seek a range of ways to secure good quality provision and this funding will be used to further support development.

With effective use of the sports premium and our commitment to PE, we have been proud to have achieved the Gold Sainsbury's Games Award for the third successive year:

Accountability

The DfE stipulate that 'the premium should be used to develop the PE and sport activities that your school offers and build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years.' There are five key indicators of improvement (referenced in the spending plan):

- KI1 the engagement of all pupils in regular physical activity*
- KI2 the profile of PE and sport is raised across the school as a tool for whole-school improvement*
- KI3 increased confidence, knowledge and skills of all staff in teaching PE and sport*
- KI4 broader experience of a range of sports and activities offered to all pupils*
- KI5 increased participation in competitive sport*

School's must publish details of how they spend the PE and sport premium funding. This must include:

- the amount of premium received
- a full breakdown of how it has been spent (or will be spent)
- the impact the school has seen on pupils' PE and sport participation and attainment
- how the improvements will be sustainable in the future
- How many year 6 pupils are meeting the national curriculum requirement to swim competently, confidently and proficiently over a distance of at least 25 meters, use a range of strokes effectively and perform safe self-rescue in different water-based situations

This information, for the academic year 2017/18, is outlined in the table below:

West Sussex West School Sport Partnership	£500	<p>KS1: Huff & Puff Programme KS2: Future Flyers Programme</p> <p><u>KS1: Huff & Puff Programme</u> All children will receive their "huff & puff" bag. This includes basic equipment to run activities as well as a guide/log booklet. The concept is for families to practice these fun "core skill developing activities" at home for 5/6 weeks together. They are then invited to the Westgate Leisure Centre for the Huff & Puff festival- this includes having all the children together showing the skills they have learnt during the last few weeks, as well as being rewarded with fun bouncy castle recreational time. Families are encouraged to work with their children at the festival.</p> <p><u>KS2: Future Flyers</u> The Future Flyers programme is a gifted and talented sports programme, schools will target their elite all round best sportsmen/women. They will then receive 4x 2hour sessions for 6 pupils, working with high quality coaches to develop their skills further, learn about fitness & nutrition and experience new sports that will expand their sporting abilities.</p> <p><i>KI4 broader experience of a range of sports and activities offered to all pupils</i></p>	<p>The Huff & Puff programme has two major outcomes. Firstly "physical development", secondly "family engagement". This project provides the platform for families to be active together whilst developing the children's core skills.</p> <p>It is important that we are "providing pupils who are gifted and talented in sport with expert, intensive coaching and support" (Ofsted, 2015) . Also for any schools looking to achieve "Gold School Games Mark" status, this is an essential.</p> <p><i>KI2 the profile of PE and sport is raised across the school as a tool for whole-school improvement</i></p>
